*May 24, 2018*

As of May 24, 2018, the Glasscock Groundwater Conservation District will no longer accept Intent to Drill forms. All water wells drilled after this date must have a permit issued or well registration form for domestic wells. Permits and registrations must be approved by the Board of Directors at the regular monthly board meeting before drilling can begin.

If you have any questions regarding this matter, you may contact the District office.

Sincerely,

Ken Carver  
General Manager
